Worcestershire Beacon

The Highest point on the Malverns - The route from the car park at Wyche Cutting takes about 45 minutes at a steady pace, with views to Herefordshire for the first part and views over Malvern for the second part to the summit. The path has a good surface and is tarmac most of the way to the top so would be suitable for wheelchairs.

Herefordshire Beacon

AKA British Camp - There is a car park on A449 opposite The Malvern Hills Hotel - This is a shorter walk than the Worcestershire Beacon and takes just over 30 mins to get to the summit at a steady pace. Part of the route is stepped, and is suitable for people of all ages, although we would recommend good footwear.

Priory Park

Priory Park is situated behind Malvern Theatres, an oasis of quiet, unless there is a music event on the bandstand, you can also feed the ducks on the pond -
